Power Steel 18' X 9' X 48" Oval Pool Set

Description

The Power Steel 18' x 9' x 48" Platinum Series Oval Pool Set by Bestway is the prime choice for families because of its superior steel frame design engineered for maximum strength and durability. Plus minimal-tool assembly makes this the easy answer for your backyard pool needs. The unique oval design and shape of this pool make it more compact, so it requires less area for setup and less water to fill it up. Included with the set: a 1000 gallon sand filter pool pump to keep your water sparkling clean, a pool cover to keep debris out when the pool is not in use, a ladder for easy entry and exit, a deluxe maintenance kit, and a solar water heater providing an economical and environmentally friendly way to heat your swimming pool water. The extra strong side walls of this pool are constructed with Tritech, a 3 layer reinforced material with a polyester mesh core encased between two layers of high gauge PVC material. This creates a total thickness of approximately 25 gauge, offering superior strength and durability as well as strong resistance to ruptures and UV degradation. With a Bestway Power Steel Platinum Series Oval Pool Set, your family will be provided with years of summer swimming enjoyment! **WARNING: CHOKING HAZARD-Small parts. Not for children under 3 yrs.**
